

Partners with Industry

Our associates average more than 25 years of operations experience in a wide variety of industries, allowing companies to draw on our wealth of knowledge and expertise. Solomon EOSTM has translated that expertise into assisting organizations to embrace the implementation of robust systems to insure long-term viability. In the current business climate change happens with lightning speed, so it is imperative that companies be systems driven and strategically focused.

Solomon has successfully assisted companies of all sizes to develop numerous core competencies including:

- *Strategic Deployment (Hoshin Kanri)*
- *Value Stream Management*
- *Leadership Development*
- *On-boarding*
- *Personal Development Planning*
- *Performance Management*
- *A3 Thinking*
- *Quality Operating Systems*
- *Project Management*
- *Problem Solving*
- *Supply Chain Development*
- *Lean Six Sigma and Continuous Improvement*
